

## WITHDRAWALS BY TURKS

THOMAS W. LAWSON, THE FORMER  
FINANCIER, HAS DISAPPEARED

Decision to Sell His Dreamwold Estate  
to Satisfy His Debts Believed Re-  
sponsible for His Sudden Disappear-  
ance—May Have Gone to Oregon

BOSTON, Oct. 3.—Thomas W. Lawson, the former financier, whose fortunes have suffered the latest fall in a fluctuating career, was missing today. Those associated with him say they had no reason to believe that he had befallen him, but suggested that the decision to sell his Dreamwold estate to satisfy his debts had probably decided to go somewhere for a short time to be alone. His health had not been of the best recently.

Horace T. Fogg, one of Mr. Lawson's trustees, said he did not think that his principal was ill. He suggested that he might have decided to go to Oregon, where his daughter, Mrs. Henry McCall, is living.

Mr. Lawson, still a debonaire figure in his 64th year, went several weeks ago to Southwest Harbor, Me., to stay with his sister, Miss Mary Lawson.

Dreamwold, his great house and his outlying lands, built to satisfy a wish of his wife, became first lonely and then a financial burden, and he left it to live with his sister for a time. Saturday night, the word went out that he was selling Dreamwold to get money to meet his debts. Sunday night he telephoned from Southwest Harbor to ask how the public took the news. Yesterday he left, saying he was not certain where he would go. He has not been heard from since.

It was thought he might go directly to Dreamwold, but inquiries there today were told by the trustees who are preparing the place for sale on the auction block, that they had no word of Mr. Lawson's whereabouts. He has maintained offices at Young's hotel, in this city for years, with a secretary in charge, and there also it was stated that there was no information from the chief.

AGREEMENT WITH  
49 RAILROADS

Trainmen and Conductors'  
Representatives and R. R.  
Heads Sign Pact

New Agreement Maintains  
Old Rates of Pay and Rules  
and Working Conditions

CHICAGO, Oct. 3.—(By the Associated Press)—A new agreement maintaining the old rates of pay and rules and working conditions, was signed today by representatives of approximately 49 railroads and subsidiaries and the Brotherhood of Railroad Trainmen and the Order of Railway Conductors.

The agreement which will be in effect until October 21, 1923, besides maintaining the old wage levels and rules, including time and one-half for overtime, after eight hours, was considered by the employees' organizations as favorable to them. Grievance committees of the trainmen's organization on 13 roads entering Chicago, had approved the agreement before W. O. Lee, president of the trainmen and L. F. Sheppard, president of the conductors affixed their signatures today.

The western managers were said to have been mindful of the long maintained attitude of the train service brotherhoods in living up strictly to the agreement with the railroads and to have made some concessions in the progress of the negotiations which began yesterday.

Under the agreement all disputes pending before the United States labor board will be withdrawn.

Today's agreement included the principal of entering Chicago and traversing territory west of the Mississippi river and with agreements signed with eastern lines, approximately three-fourths of the railroad mileage of the country now has signed up with the trainmen and conductors, Mr. Lee announced.

NEW YORK CLEARINGS  
NEW YORK, Oct. 3.—Exchanges, \$1,021,000,000; balances, \$55,000,000.

## FIRST WOMAN SENATOR

Mrs. W. H. Felton Appointed  
to Fill Vacancy Caused by  
Death of Sen. Watson

ATLANTA, Ga., Oct. 3.—(By the Associated Press) Mrs. W. H. Felton of Cartersville, Ga., was appointed by Governor Thomas W. Hardwick today to fill the vacancy caused by the death of Senator Thomas H. Watson, until he people elect a successor in November.

Mrs. Felton will be the first woman to become a senator.

Whether Mrs. Felton will actually have an opportunity to qualify and sit in the senate, is doubtful, for her successor will have been elected before the expiration of a special session of congress in November.

Mrs. Felton is the widow of Dr. W. H. Felton, who served as a member of congress for several terms. She has long been active in Georgia politics.

Many years before the women were granted the right of suffrage, Mrs. Felton managed her husband's campaign and attended the district in his behalf. She was a friend of the late Senator Watson and supported Governor Hardwick in his recent campaign for re-election.

In announcing Mrs. Felton's appointment, Mr. Hardwick said he would himself be a candidate to succeed Senator Watson in the primary to be held Oct. 17.

Mrs. Felton, who is 87 years old, announced she would accept the appointment, which previously had been declined by Mrs. Watson, widow of the late senator, because of ill health, and an aversion to public life.

"The lady I have selected for the appointment," said a statement by the governor announcing Mrs. Felton's selection, "is now and has been for many years, the warm and loyal friend of the distinguished Georgian whom she temporarily succeeded in this high office. She is splendidly fitted to adorn the highest public station in the land for she wields the gifted pen of a cogent and forceful writer and has all the qualities of heart and head that equipped her for broad and constructive statesmanship. She is wise, even beyond her years, and is glorious in the sunset of a splendid and useful life. She is known and loved throughout Georgia, the south and the country as Georgia's foremost woman citizen."

At her home in Cartersville, the new senator-elect dictated a message to Governor Hardwick, accepting the appointment "with mingled feelings of personal gratitude and profound admiration for your courage in thus placing, as far as your office allows, a woman in the ranks of the most exalted body in the known world."

"It is going to thrill the nation," Mrs. Felton added. She said it was "eminently fitting" that the position had first been tended to Mrs. Watson. Mrs. Felton was born in DeKalb county, Georgia, June 10, 1835. She was married in 1853 to Dr. H. W. Felton, who died in 1909. Five children were born to them, but only one, Dr. Howard H. Felton, survives. She is an active member of the Daughters of the American Revolution, member of the Colonial Dames and one of the earliest members of the Atlanta Commercial club. She has written two biographies, which are widely read throughout the south, and has been a regular contributor to various publications for many years.

May Take Oath in Georgia

WASHINGTON, Oct. 3.—Although Mrs. W. H. Felton, appointed to succeed the late Senator Watson of Georgia, probably will not have the opportunity of actual service in the senate because of the present recess of congress, she will have the pay, as well as the title of a senator until a successor is chosen.

Mrs. Felton is not expected to come to Washington as she may take the oath of office in Georgia, and receive her commission from the governor there.

## Paris Hears Kemalists Have Evacuated Neutral Zone Along Straits of Dardanelles

RECOGNITION OF  
NEW GREEK KING

British, Italian and Belgian  
Representatives Sign Vis-  
itor's Book

Revolutionary Committee  
Still Continues All-Power-  
ful—Stern Martial Law

Harvard Graduate Director  
of Press Bureau and Chief  
Censor at Athens

ATHENS, Oct. 3.—(By the Associated Press) The revolutionary committee still continues all-powerful and there are daily evidences of stern martial law, armed patrols slowly marching through the streets.

General indications are that the Venizelists are waiting to see how the internal situation develops, preferring to remain outside the government until the Venizelist party is definitely summoned to power at the national elections to be held Nov. 12.

The British, Italian and Belgian diplomatic representatives have signed the visitors' book at the royal palace, and the Greeks interpret this as the formal recognition of King Constantine.

A recently posted announcement at the Central Telegraph informs the foreign press correspondents that the censorship of their telegrams will henceforth operate at the press bureau of the foreign office. This is signed "By order of the committee of revolution."

The turn of the political wheel has brought a Greek who is well known in America and whose mother is an American, into the important position of director of the press bureau and chief censor. This is P. Demetrius Kalopothakis, whose mother is a native of Massachusetts, and who himself was graduated from Harvard, class of '88 and for seven years was connected with the American legation here.

The former premier now under arrest are being removed to an island near Piraeus, where they will be released on parole under military supervision.

Hotter October Days  
FOR MANY YEARS

Sunday, Monday and today were the hottest October 1, 2 and 3 this city has experienced in half a century. Although today's maximum temperature will not quite reach the 86-degree mark touched both yesterday and Sunday, it nevertheless will be a record-breaking October 3, just as were the other two for their respective dates.

One can go back in the records of the locks and canals decade after decade without finding a parallel for any one of the three dates and although a full span of 50 years was not covered today, company officials said if yesterday was the hottest October 2 in history.

UNCLE JOE OFF  
ON LONG TRIP

WASHINGTON, Oct. 3.—With an old slouch hat cocked on the side of his head, Uncle Joe Cannon started out by automobile today for Danville, Ill., traveling over the old national pike his parents took 33 years ago in emigrating westward.

The veteran legislator was full of pep as he stepped into his car at the Capitol and told Lester Morrison, for 10 years his chauffeur and his sole companion on the trip, to "Give her the gas." He waved the old hat, reared for a cigar and smiled.

AUTO PARTIES

Parties interested in a personally conducted two-day auto tour to the White Mountains, starting Saturday, Oct. 7, communicate with John T. Danvers, Postoffice Garage, Phone 1170 or 4264-R. Also a two-day auto tour over the Mohawk Trail Columbus Day, Oct. 12.

KNIFE DRAWN IN FIGHT  
NEAR LOCAL WILL

John Anapolos and Nicholas Safran became embroiled in a wordy argument in front of the Lawrence mill about 7 o'clock this morning. According to Special Officer Reginald of the mill, John drew a knife during the course of the argument and the two men indulged in a combat. A few minutes later they were resting in cells in the police station and shortly after 10 o'clock faced Judge Thomas J. Enright on charges of disturbing the peace.

After the court heard the story he placed the case of Nicholas on file but pinned a \$25 fine upon John and warned him that any more displays of knife work would land him in jail.

No fewer than 30 different chemicals have been discovered in sea water.

BARS IN PATH TO  
FULL PROSPERITY

Thomas W. Lamont Draws  
Picture of U. S. Recovery  
From Wounds of 1917-1921

Binding up Bruises and  
Slowly Moving Forward to  
New Goals

Strikes, Bonus, Tariff Act,  
Foreign Situation, Still  
Hurdles to Be Jumped

NEW YORK, Oct. 3.—A picture of America, recovering from the "rudder buffets and deep wounds" of 1917, to 1921, and "with characteristic courage, binding up her bruises and slowly moving forward to new goals" was drawn today by Thomas W. Lamont, associate of J. P. Morgan, in an address before 10,000 delegates at the convention of the American Bankers' association.

"But we have not yet cause for unbounded confidence," he cautioned the bankers. "We must not forget that before the race is won, we still have some high hurdles to jump."

These bars in the path to full prosperity, he enumerated as:

Low prices prevailing for farm products.

Labor strikes.

The new tariff act.

The foreign situation, with respect to reparations, allied loans and international trade.

Discussing the inter-allied debt, Mr. Lamont raised two questions:

The inter-allied debt.

"Do your allies really owe us all the debt?" and "Are we doing our full share?"

MILLS GIRL MAKES PLEA

Sends Letter to Detective  
Parker, Begging Him to  
Help Solve Murder Mystery

NEW BRUNSWICK, N. J., Oct. 3.—Charlotte Mills, daughter of Mrs. Eleanor Richmond Mills, who was slain with the Rev. Edward Wheeler Hall, today sent a letter to John S. Parker, Burlington county detective, begging him to come to New Brunswick and help to solve the mystery.

"I am appealing to you," she wrote, "to come to New Brunswick to arrest those responsible for the murder of my mother."

"More than two weeks have elapsed since the crime was discovered, yet nothing apparently has been done to apprehend the guilty person or persons."

"I know that you will not lose any time in clearing up the mystery surrounding the cruel slaying of my dear mother. Therefore, I am appealing to you to come to New Brunswick at once."

Charlotte sent a copy of the letter to Prosecutor Stricker of Middlesex county, asking him to join with her in asking Parker to take over the case.

TURK CAVALRY  
QUITS CHANAK

Constantinople Report How-  
ever Says Turks Still  
Within the Neutral Zone

Conference Opens at Mu-  
dania — Military Matters  
Discussed Today

Demarcation of New Neutral  
Zone and Evacuation of  
Thrace Considered

CONSTANTINOPLE, Oct. 3 (By the Associated Press)—The Turkish cavalry has retired from its advanced positions in the Chanak area, decreasing the danger of conflict there.

This withdrawal, which is described in messages from the Dardanelles as "slight," was supposed here to be in consequence of word received by the Turks that the Mudania conference was in session. The Turks, however, were said still to be well within the neutral zone.

REPORT EVACUATION  
OF NEUTRAL ZONE

PARIS, Oct. 3.—A Havas despatch from Smyrna, the Turkish nationalist headquarters, says it has announced the Kemalists have evacuated the neutral zone along the straits of the Dardanelles.

The situation at Chanak was unchanged as late as yesterday afternoon.

DECISION ON R. R. WAGES

400,000 Maintenance Men  
Await Announcement of  
Labor Board Today

CHICAGO, Oct. 3.—Four hundred thousand railroad maintenance men of way workers today awaited the decision of the United States railroad labor board on their application for increased wages.

In announcing that the order probably would be forthcoming today the board gave no advance indication of the scope of its ruling but left a general impression that the minimum scale, ranging from 23 to 35 cents an hour, would be increased.

The wage hearing, which closed yesterday, followed negotiations begun after the trackmen had voted to strike and after the shop crafts had walked out in protest against the July 1 wage cuts. E. F. Grable, president of the maintenance men, held the threatened strike in abeyance when the board granted a rehearing on the pay question.

REPUBLICANS OF  
VERMONT MEET

BURLINGTON, Vt., Oct. 3.—Vermont republicans from all over the state gathered here this afternoon in convention to adopt a platform. About 200 were present when the convention was opened by Franklin S. Billings of Woodstock, temporary chairman and candidate for lieutenant governor.

Among this afternoon's speakers scheduled were Redfield Proctor, candidate for governor and Congressman Frank L. Greene, candidate for the United States senate.

PERSHING MAKES APPEAL

WASHINGTON, Oct. 3.—An appeal to the newly formed national organization of reserve officers of the army in session here today to use its influence against false economy in army appropriations, was made by General Pershing today. He reiterated his assertion that the minimum force of regulars needed by the country was 150,000 men and 13,000 officers.

"That should be the very lowest limit," he declared.

A turtle's heart will beat for two or three days after the rest of the animal has been made into soup.

## MAYOR BROWN STARTS INVESTIGATION OF PLAN B SIGNATURES

Will Send Postal Cards to All Persons  
Whose Signatures Were Certified by  
Election Board—Mayor Says He Has  
Affidavits and Letters From Persons  
Who Deny Having Signed Petition

Mayor George H. Brown has launched, which the mayor desires to have re-

turned to his office, is the following statement:

"Your name appears on the petition at city hall for Plan B charter. These cards are sent out for the purpose of verifying the signatures. Unless the reply card is returned, it will be taken for granted that you did not sign the petition."

A return post card is attached to each and on its reverse side a person is asked to designate whether he or she signed the petition. Places for names and addresses are provided under these two statements:

"I signed the petition for Plan B charter."

"I did not sign the petition for Plan B charter."

On the reverse side of the reply card.

## Defense Rests in Creasy Murder Case

MINEOLA, N. Y., Oct. 3.—The defense rested today in the trial of William M. Creasy, Kentucky mechanic, accused of murdering Miss Edith Lurvey, Freeport school teacher, and the prosecution expected to conclude its evidence this afternoon. Character witnesses testified for Creasy today.

## Sliver of Glass Pierced Boy's Heart

LOS ANGELES, Cal., Oct. 3.—James Thomas, 14, a student at the Inglewood high school, trying to prevent a door from slamming, thrust his hand through the glass panel and a sliver of glass pierced his heart. He walked down the steps of the building. Then he collapsed and death came quickly.

## Big Forest Fires Spreading

DULUTH, Minn., Oct. 3.—Heavy winds have driven the forest fires north and west of Duluth out of control and situation was so serious this afternoon that the combined forestry and military forces were concentrating all efforts on removing settlers and protecting buildings.

## Irish Republicans in Surprise Attack

BREAST, Oct. 3.—Republicans made a surprise attack on the Nationalist garrison at Omagh, County Louth, early today, and a sharp three-hour fight ensued. It is reported, but not confirmed, that 10 of the Republicans were killed and many wounded. Telephone communication with Dromahaire, has been cut.

## Parliament Accepts Oath of Allegiance

DUBLIN, Oct. 3.—(By the Associated Press)—The parliament today passed by a large majority the clause of the new Irish constitution containing the oath of allegiance.

## Compromise Move By Italy

GENEVA, Oct. 3.—(By the Associated Press)—The Italian government has notified the council of the League of Nations, that it is willing to give up its claim that the governments guaranteeing the loan to Austria have direct control of the country's financial administration, in consideration of Lord Balfour's agreement that the loan shall not include the sums already advanced to Austria. This compromise leaves the supervision of Austria's finances in the hands of the league commission.

## Mexican Garrison in Revolt

MEXICO, CITY, Oct. 3.—(By the Associated Press)—A meagre despatch from Pichucalco, in the state of Chiapas, to the secretary of the interior, states that the federal garrison of that town revolted yesterday. The cause and extent of the movement were not given. Pichucalco is on the Guatemala border.

## 26 Turkish Irregulars Killed

CONSTANTINOPLE, Oct. 3.—Twenty-six Turkish irregulars, including one officer, were killed by the Greek forces following the Turks' invasion of the Chatolju neutral zone yesterday, according to a communiqué issued by the Greek commander-in-chief, Gen. Polymenakos.

A Constantinople despatch yesterday said a band of 800 Turkish irregulars crossed the border of Thrace at Sinikli, and attacked the Greek outposts. The Turks were thrown across the boundary after the arrival of Greek reinforcements.

# Radiographs

Replacing "Ticker"

SCENE OF ONE OF THE NEWEST USES FOR RADIO—BROKER'S OFFICE IN WALL STREET.

BY N. E. A. SERVICE  
NEW YORK, Oct. 3.—The familiar noise of the stock exchange "ticker" is going from the broker's office. It is being supplanted by radio. It is the latest innovation for brokerage offices. It is eliminating unnecessary noise, much the same as typewriter concerns are gradually but effectively eliminating the click of the typewriter. And, the broker who has installed it, says it is saving time. For instance, in former days when the ticker was relied upon, the broker had to go to the ticker, read it, then chalk up returns. Now he chalks each return as he gets it—via a receiving set. Radio has passed out of the fad

class and is a very useful article. It has been so demonstrated in numerous ways. This is just another, although one of the latest.

Besides being very useful in the broker's office, it also proves a source of entertainment for those awaiting stock quotations and current prices.

## LEGION WILL HOLD MILITARY BALL

The American Legion is planning to put on an old fashioned military ball on the night before Armistice day, according to tentative plans as outlined at last night's meeting of the post. The affair will be held in the Auditorium and in order to insure success it will be necessary for all the military organizations in the city to cooperate. The legion avers that the ball will be for all military organizations and the more represented at the party the greater will be the fun. The old mechanical ball game is about what the legion men have in mind.

If the dance is a success, it will be continued as an annual affair. Years ago, before the World war, old time military balls were all the rage and always promised a good time. With gold lace, gaudy uniforms and makeups of different periods the parties were a grand success.

It was also decided at the meeting to communicate with Mayor George H. Brown and to ask him if arrangements could be made so that the gold star medals for gold star mothers would be ready for distribution on either the afternoon or evening before Nov. 11.

## SHORT SKIRTS INCREASE INSURANCE RATES

GENEVA, Oct. 3 (by the Associated Press).—Low necks, short sleeves, short skirts and high heels in feminine apparel have increased woman as an insurance risk, and several Swiss insurance companies which insure against sickness have announced that their premiums are now raised 15 per cent for women because of her curtailed garb.

## LOCAL RADIO FANS ARE INTERESTED

News that W.O.R., a broadcasting station at Newark, N. J., had received a wireless message from London stating that the sound of a woman's voice and the strains of an orchestra that had been broadcast Sunday night in attempt at transatlantic communication had been heard in London caused considerable discussion among the members of the Lowell Radio club. One member said that he was not surprised at this announcement as they have been experimenting on this for some time past. In all probability, he said, the London station picked up the message by the use of radio frequency amplifiers, an instrument not allowed to be used by amateurs in this country.

In commenting on the differences encountered by amateur operators in this country and England he said that it was not only necessary for an English operator to have a license but he had to pay a fee to secure that license. In addition all broadcasting is under the direction of the government and every operator has to contribute to the upkeep of the government-owned stations whether he wants to or not.

In further commenting on radio phone work he told of the regular radio toll service that is maintained at Catalina Island, off the shore of California. The station there maintains a regular service for its patrons and messages are sent to all parts of California. The station is run as a telephone exchange. Direct communication by radio is made in a few minutes and it is possible to talk to persons hundreds of miles distant just as over shorter distances on the telephone. It is the plan of the big radio companies, he said, as soon as conditions become more stable to establish radio phone exchanges throughout the country so that it will be possible to get in touch with persons at a far greater distance than is the case now with the telephone.

Local radio fans desire to take a series of setting up exercises every morning before they enjoy breakfast. It is only necessary to plug in for the Amrad station at Medford and listen to the instructions broadcast from there. Each morning a set of exercises is sent out and an operator can simply plug in, put on his receiver and go through the motions as instructed by the voice flowing from the ether. Such lessons have been put on the phonograph by Walter Camp and put on the market for sale but this method gives a more personal touch and is more easily followed.

In order to insure greater and better service for its many patrons the Amrad station is installing two 250-watt tubes in place of the two 50 watt tubes used formerly. With this new equipment this station can give more comprehensive broadcast programs and send them over a larger area.

## WHAT CAUSES HEADACHES?

### "Fruit-a-lives" Prevents Auto-Intoxication

Auto-intoxication means self-poisoning. Many people suffer from partial Constipation or insufficient action of the bowels. Waste matter which should pass out of the body every day, poisons the blood.

As a result, there is Headache, Indigestion, disturbed Stomach, lack of sleep, Rheumatism and Eczema.

"Fruit-a-lives" will always relieve Auto-intoxication as these fruit tablets, made from fruit juices, act gently on the bowels, kidneys and skin and keep the blood pure.

50¢ a box, 6 for \$2.50, trial size 25¢. At dealers or sent by FRUIT-A-LIVES Limited, OGDENSBURG, N. Y.

## FOR GOVERNOR OF R. I.

### Prospects of Triangular Fight for Democratic Nomination at Convention

PROVIDENCE, R. I., Oct. 3.—With prospects of a triangular fight over their choice for the governorship, Rhode Island democrats gathered here this morning for their state convention. Whether modification of the prohibition laws would become an issue in the adoption of a platform, party leaders could not state, although a majority expressed a hope that the subject would be ignored.

George T. Brown, judge of the superior court, is the choice of a majority of the party leaders for the governorship, following the refusal of Mayor Joseph H. Gainer of this city, to allow his name to go before the convention. Representative William S. Flynn, of this city, is also an avowed candidate for the office and is expected to show considerable strength. Former Mayor Edward M. Sullivan, of Cranston, who has threatened to bolt what he has termed a "hand-picked candidate" is also expected to be a candidate.

One woman candidate probably will be named by the convention in the person of Mrs. Susan Sharp Adams of Kenyon, who will be put forward for secretary of state. Thus far, no opposition to Mrs. Adams, who is an important factor in women's organizations in the southern end of the state, has developed.

Alberic A. Archambault of Warwick, who had announced that he would be a candidate for the governorship, withdrew last night, following the sudden death of his father, Judge Frank S. Fitzsimmons, collector of the port of Providence, will probably be nominated for lieutenant governor.

## NEW HEAD FOR NEW HAVEN HOSPITAL

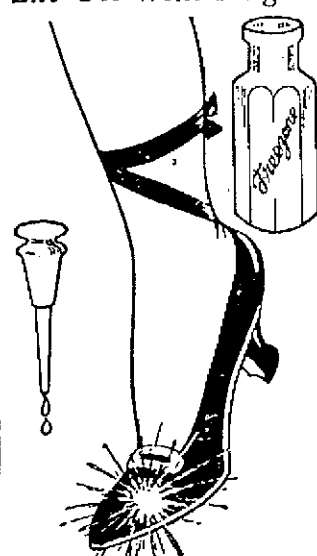

NEW HAVEN, Conn., Oct. 3.—The appointment of Dr. Willard C. Rappleye as superintendent of the New Haven hospital, to succeed Dr. Harold W. Hersey, resigned, was announced today. Dr. Rappleye will hold the rank of professor in the Yale medical school, which is closely affiliated with the hospital.

Dr. Rappleye is a graduate of the University of Illinois and the Harvard medical school. He has served in hospitals in Boston and California, and has been an instructor in the University of Illinois and the University of California.

PROFESSOR OLNEY  
Professor Louis A. Olney, head of the department of textile chemistry and dyeing at the Lowell textile school, has just completed a quarter of a century of continuous service in that capacity, during which time the courses have taken appreciable strides of advancement. Prof. Olney, in a recent issue of the American Dyestuff Reporter, is styled the dean of education in his favorite field.

"Russians Flock to Turks"—headline. Birds of a feather.

Some day a confidence man is going to organize a company for canning condensed water.

BOHEMIAN GIRL AS DEMONSTRATOR

Daily public demonstrations showing how those dainty adornments of milady's coiffure—hair nets—are made, are attracting much attention to the Bohemian girl, Matilda Taka, who is appearing in one of the Miramack street windows of the A. G. Pollard Co. This young lady has been making nets from human hair since she was a child of seven years. All this week she is to show the women of Lowell and vicinity just how the flimsy, delicate adornments are created. The demonstrator has nimble fingers, and appearing in native and colorful costume, makes a decidedly attractive

## ATTENTION, COMRADES 185, G. A. R.

The next meeting of this Post will be in their new quarters at Lowell Memorial Auditorium, Wednesday, Oct. 4, 1922, at 7:30 p. m. The ladies will furnish a supper at 6 p. m. the same day. On and after this date Post 185, G. A. R., will meet the 1st and 3rd Wednesday of each month at 7:30 p. m. in the veterans' annex of the Lowell Memorial Auditorium.  
F. S. PEVEY, Commander.

picture as she performs her interesting work in the shop windows.

Miss Taka is demonstrating the Union invisible hair net, declared to be one of the best makes of "Fashion Street." A good many women unfamiliar with the methods employed to produce an up-to-date hair adornment of this kind, have supposed that the nets were turned out by machinery in large quantities and quickly. Such is not the case with the Union. Human fingers well trained fingers, of course, are the essentials for the making of hair nets. The young demonstrator now on view in the Pollard windows, busy at her work each day during certain hours as announced, is considered one of the most skilled net-makers, not only in this country, but in her native

Roumania, where the industry really originated.

The first hair net came into use 22 years ago, and, strangely enough, a member of the male sex originated the idea. His name has been forgotten, though. The first hair net was a crude affair, yet it started an industry that today employs thousands of people. Miss Taka answers all questions relative to hair nets, types that should be used by different women, and also offers suggestions of value to all comers of an inquiring nature.

Radium will make a real diamond of the most skilled net-maker, not only in this country, but in her native

test on an imitation.

## Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher on the wrapper for over 30 years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but experiments that endanger the health of Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY.

## PORT DIFFERENTIALS HELD OPENING MEETING

Hearing on Charges of Discrimination Against New England Port

BOSTON, Oct. 3.—Robert E. Quirk, chief examiner of the Interstate Commerce commission, began hearings at the state house today on the question of the English port differentials. The hearings, which are expected to continue throughout the week, were requested by New England chambers of commerce and other organizations which contend that present differentials on western shipments discriminate against New England ports, particularly Boston, in favor of Philadelphia, Baltimore and other South Atlantic ports.

## IMPROVING LOWELL-BILLERICA LINE

One of the most important jobs that has been planned by the Eastern Massachusetts Street Railway for the rejuvenation of any main or branch road, has just been started with a rush on the Lowell-Billerica line, beginning this side of North Billerica. Last week the force of workmen was very small, for preparations for the toning up of this double-track road had not been fully completed. Beginning yesterday, however, gangs of men were put to work in earnest, and the territory where the railway grade and stretches away this side of North Billerica shows plenty of evidence of the new work, much of which has already been completed with excellent results.

Electric welders are actively at work converting old rail joints that had become angular and bumpy into a smoother, oval surface. The work going on today is as interesting as anything that has been done in local or nearby railroad or rail improvement campaigns during the past year.

Powerful machines are used in the work of providing the railway line with an even traveling surface all along the great run.

Much of the work of the men has to do with cleaning away the dirt, gravel and small stones from the iron clear down to the ties below. This is necessary because so many of the rails have become detached at the joints and sunk, giving an uneven surface, noticeable to all who travel over the line.

## EX-GOV. GARVIN OF R. I. DROPS DEAD

PAWTUCKET, R. I., Oct. 3.—The funeral of former Governor Lucius F. C. Garvin, who died suddenly in his office in Providence, yesterday, will be held on Wednesday at 2 o'clock. Although the arrangements are not complete, it is expected that many prominent politicians and business men from this and other states will pay their last respects to the country doctor who made himself a force in the politics of the state and New England.

## Middlesex Women's Club Opened Season Yesterday

The Middlesex Women's club opened its season yesterday with a reception and tea and a most interesting outline of the year's work. What is in store for the club members this winter is included in the address of Mrs. Olla L. Humphrey, president.

After the exercises there was a reception to incoming officers and directors, with Mrs. Humphrey, Mrs. Marshall, Mrs. Arthur, Mrs. Bartlett, Mrs. James E. Carter, Mrs. Arthur Wright and Mrs. Joseph Barber in the receiving line.

The club suite has been enlarged this year by acquisition of a room formerly used by Dr. Van Dusen and another welcome improvement is the new dining room, which is in the new hall. The color has been changed from terra-cotta to cream and is much more attractive.

The club begins its season with an active membership of 850, made possible by the abolition of waiting list tickets.

Mrs. Humphrey's address, in which she outlined the meetings for the year, follows:

The house committee, in addition to the annual and very thorough house cleaning conducted during the summer, has supervised the required redecorating and minor changes made necessary by the addition of this room, already mentioned.

The department has been active during the social season.

The house economics department has arranged for classes in Italian hemstitching, cut-work, embroidery and modern lace-making.

Mrs. Jane Tweed, who is highly recommended and who has done successful work at Denison House and other places, will be the instructor.

This committee is also considering the holding of classes in artistic dyeing and stenciling of fabrics and in hatwork, and hopes to conduct a series of classes for the showing of films dealing with home subjects.

The civic department is planning to hold its mothercraft classes on a larger scale than last year and hopes to consider the life and works of the mothercraft films in some large hall or theatre.

The legislative branch of this committee is arranging a meeting on legislative affairs to be held in January.

The literature department would like to arrange for class work during the club season where any type of literature, drama, fiction or poetry could be studied, and perhaps, at times, to consider the life and works of the artists and lecturers who are to appear before the club.

This committee is very anxious that the beginning of a library shall be made for the use of the club members. They are studying this question from every angle and considering the feasibility of such a move.

The education department expects to resume its classes in French under the leadership of Eugene Talbot Tourneur, provided there is sufficient demand. And also to continue the Americanization work as in the past.

We will consider today the beginning of the year.

## CRIME WAVE PASSING

Belief Expressed in Report of Protective Agencies of American Bankers

NEW YORK, Oct. 3.—Belief that the crime wave is passing so far as the country's banks are concerned, was expressed in the report of the protective agencies of the American Bankers' association submitted in convention here today. Increased activity and co-operation on the part of public officers and the courts in bringing about prompt trials and proper penalties for those charged with crimes against the banks were responsible for the better conditions, the report asserted.

There were 406 burglaries or attempted burglaries of member and non-member banks reported in the period between Sept. 1, 1921, and Aug. 31, 1922, in 36 states. No reports of burglaries or attempted burglaries were reported in that period from Connecticut, Maine, New Hampshire, Rhode Island and Vermont, and a few other states. Total losses from burglaries reported by the banks were given in the report at \$245,302.

Losses from holdups reported by 146 member and non-member banks totalled \$905,651 during the period covered. No holdups were reported from Connecticut, Massachusetts, New Hampshire, Rhode Island and Vermont.

Out of a total of 179 arrests in cases under investigation by the association as covered in the report, there were 462 convictions obtained and 161 cases awaiting trial.

The rules of the protective committee were broadened. It was announced to include in its activities the investigations of crimes against officers and employees of member banks engaged in banking business outside the bank's premises.

The rules of the protective committee were broadened. It was announced to include in its activities the investigations of crimes against officers and employees of member banks engaged in banking business outside the bank's premises.

## BOSTON SYMPHONY ORCHESTRA CONCERT

Following out his desire to give the people of Lowell and the surrounding country not only the best attractions obtainable for his Memorial Auditorium course, but also the greatest possible service in connection with the presentation of these attractions, Albert Edmund Brown has made arrangements to facilitate the ordering of tickets for the Boston Symphony orchestra concert to be given at the Auditorium on the evening of Oct. 21.

Elsewhere in this issue will be found a coupon with space for the number of seats one desires, the location preferred and the writer's name and address. This reduces the ordering of tickets to a minimum of effort and will undoubtedly be greatly appreciated by those who plan to buy their tickets by mail. Just clip the coupon, fill it in and be sure to specify what part of the Auditorium you prefer. This will allow you just as much choice as you would have if you walked up to the box office at M. Steinert & Sons after the actual ticket sale opened and asked the attendant on duty for seats in a certain part of the building. This special service, feature, introduced by Mr. Brown gives a personal touch to ordering by mail. This service will be typical of all Albert Edmund Brown Auditorium attractions.

For full information concerning any of these attractions call M. Steinert & Sons Co., 130 Merrimack street. Telephone 1069.

Pierre Monteux, conductor of the Boston Symphony orchestra, held his first rehearsal of the season yesterday in Symphony hall, Boston. Mr. Monteux spent a part of the past summer in Europe where he consulted many composers of note. As a result the orchestra is to present in the course of the season a number of new works of importance together with the accepted masterpieces of the classical symphonic repertory. A special program has been arranged for the Lowell concert.

## "Important as soap"

—said our grocer

"Mr. Baker has the nicest grocery store. It's so up to date and complete—everything you buy there is so reliable."

"I asked him whether he sold Sylpho-Nathol."

"Mr. Baker laughed. 'Yes, indeed, I do sell it—lots of it—to nearly all my customers. We use it ourselves, so I can vouch for it personally.' Mrs. Baker says it's just as important as soap."

"Sylpho-Nathol has been part of my grocery order ever since. I don't know how I ever got along without it. I use it just as regularly as I do soap—in the mop water because I know that it destroys the germs in floor cracks where soap and suds won't budge them."

"I use it in the scouring water for the garbage can and sprinkle around it every day. It keeps such places free from flies as well as odors. I pour it down the sink. It keeps drains and pipes from smelling. Of course, I use it when cleaning around the bathroom fixtures, and regularly as a flush for the toilet bowl."

Sylpho-Nathol is free from the objections which housekeepers have to ordinary disinfectants and deodorants.

Sylpho-Nathol is safe. Germs and odors disappear for good where it is used.

Sylpho-Nathol is safe. Though 4½ times stronger than carbolic acid, it is as safe to have in the house as a cake of scouring soap.

Sylpho-Nathol is easily prepared. A teaspoonful in a quart of warm water makes a clean-smelling, pearly-gray solution that's ready for immediate use.

Order Sylpho-Nathol today from your grocer, or druggist. He sells it in four handy sizes, 15c, 35c, 65c, and \$1.25. If he hasn't it, he can get it easily. Just ask for it by the name—"Sylpho-Nathol."

## VOCATIONAL TEACHERS

List Chosen for the Various Evening Schools in Domestic Science

The following is a list of teachers for the Girls Vocational school, approved by the school board at its last regular meeting: Director, Miss Esther M. Downing; clerk, Gabrielle Pagnan; head of cooking department, Robert Braubach; teachers, Helen B. King, Katherine King, Nana C. Lehey, Maybelle Sullivan, Marion Swan, Mary Varum, Harriet Catter, Ellen Howe, Juna Sleeper, Elizabeth Anderson, Sadie Miller, Mary Leary, Cora McGowan, Madeline McDonald and Myrtle Kilpatrick. With the exception of the last named, all these teachers have received assignments in the various schools throughout the city. Miss Kilpatrick will be assigned shortly.

In dressmaking, Miss Anna M. O'Day heads the department, and the teachers are Gertrude Allen, Annie Boyle, Mary V. Bradley, Agnes Burns, Katherine V. Burns, Mary Durant, Eleanor Kivlan, Sara Lonic, Marion McCarthy, Katherine McDonald, Ida L. McDonald.

# FORMAL OPENING

Of Our

## Men's and Boys' Shop and Men's Bargain Annex

### The Men's and Boys' Shop

OUR AIM IS to give you the finest quality of men's and boys' wearing apparel that money will buy.

OUR POLICY IS to give you the lowest price that will buy fine quality.

THE MEN'S FURNISHING DEPARTMENT has been reorganized and is now under the same management that brought such wonderful values and great success to the Men's Clothing Department. The Men's Furnishing Department is now located in the Men's Store and occupies a much larger and more convenient space.

THE BOYS' CLOTHING AND FURNISHING DEPARTMENTS have been enlarged and now occupy new quarters with entrances on Prescott Street and Central Street.

THE MEN'S CLOTHING DEPARTMENT is now in a position to offer a larger and more complete selection of suits and overcoats. We will continue to feature our line of Oppenheim clothes because they combine fine quality with low price to the greatest possible extent.

### The Men's and Boys' Bargain Annex

Main Entrance on Prescott Street

Direct Entrance From Men's Shop

Devoted to the sale of reliable merchandise at prices much less than their actual value.

Here we will sell manufacturers' and jobbers' surplus, lots bankrupt retail stocks, samples, odd lots and desirable seconds (which will be advertised as such) and in fact any article of dependable quality which can be sold at a bargain price.

**Every article will be guaranteed to give absolute satisfaction.**

**Nothing will be sold in this annex unless it is below the regular prices.**

**Watch Thursday's newspapers for our first bargain annex specials.**

It Will Pay You to Watch Our  
Prescott Street Windows

ESTABLISHED 1874  
**Chalifoux's**  
CORNER

Open for Inspection Wednesday  
Evening During Fashion Show.  
No Goods Sold.

# YOU ARE CORDIALLY INVITED TO ATTEND A Fashion Revue of Fall Styles

Which Will be Presented on Living Models

## Wednesday Evening at Seven-Thirty O'Clock

SECOND FLOOR

MINER-DOYLE'S ORCHESTRA

Doors Will Open  
at 7. Merrimack  
and Central Street  
Entrance.

## Fashions for Men, Women and Children

Store Will Be  
Open for  
Inspection, but  
not for Business

Twenty-four Living Models will present for your approval the very newest Coats, Suits, Dresses, Millinery, Blouses, Neckwear, Jewelry and Leather Goods for women. Suits, Overcoats, Topcoats, Hats and Caps for men and boys will be featured. Children's Dresses, Coats and Millinery will also be displayed.

### THE SHOES

"She who is well shod is well dressed," and when your shoes come from Chalifoux's Shoe Department you may be sure you are getting the very finest shoes at the very lowest prices. We have over thirty-five styles in Footwear at unusually attractive prices. Patent, tan, Russia calf, gun metal calf, black and brown, kid and satin. Shoes for men, women and for children in the daylight bargain basement.

### THE GLOVES

New Glove styles will be displayed at the Fashion Revue. The newest thing is the glove with a fancy cuff. To wear with tailored suits there is a strictly tailored gauntlet with a strap to hold it close at the wrist, in good looking kid or beautiful soft suede. These and other styles are shown in our glove section—main floor.

### THE NECKWEAR

As one customer remarked: "I can always find just what I want at Chalifoux's Neckwear Department." The very newest Neckwear at the most moderate prices. Bertha collars are very new just now, and we have an interesting collection. Notice the pretty Neckwear and the dainty Handkerchiefs on the models tomorrow evening.

### MEN'S WEAR

Every man will come in for his share of compliments and applause at the Fashion Show. Models will display the newest styles to be found in Oppenheim clothes for men. Wednesday evening will also mark the date of the formal opening of the newly enlarged Men's Store and the Bargain Annex for Men. You are invited to inspect these new departments.

### THE HOSIERY

The models will wear the finest silken hose, full fashioned silk from our hosiery shop on the street floor. Here you will find a complete line of the well known McCallum Silk Hosiery which is worn by all well dressed women. Complete range of sizes at all times. Cordovan, grey, black and white and the most popular colors for Fall.

### THE JEWELRY

Jewelry plays a most important part in milady's wardrobe for Fall 1922. Earrings especially are conspicuous. Every color, every style from the tiny drops to the huge hoops. Betty beads, novelty pins, and combs set with brilliants are found in great variety in this interesting little shop—main floor.

### TOILET ARTICLES

Are most indispensable, for where, oh where, is the woman who does not powder her nose? Our toilet goods department is conveniently located directly in front of the Merrimack street entrance, and here you will find a complete stock of imported and domestic toilet goods, including such as Coty's, Houbigant's, Elizabeth Arden and Guerlain high class merchandise.

### ACCESSORIES

It is the little things that count, and milady will find the correct "little things," such as a gay new ribbon for her wrist watch, a pair of dainty lingerie clasps, colored satin ribbon garters, a dozen of hair nets and tiny colored squares of linen, otherwise known as handkerchiefs. These may be found in complete assortment on the main floor.

CORNER

## EX-SEN. SUTHERLAND ON SUPREME BENCH

WASHINGTON, Oct. 3.—The Supreme Court reconvened today after the summer recess, and after inducing into office Ex-Senator George Sutherland of Utah to fill the vacancy caused by the recent resignation of Associate Justice John H. Clarke of Ohio, and admitting to practice 35 attorneys, adjourned to call at the White House for the customary visit of respect to the President.

Justice Sutherland, in his robes, remained behind the screen at the rear of the bench while Chief Justice Taft explained that a vacancy had occurred during the recess and that the judicial oath would be administered to the new Justice. Stepping to the platform beside the Chief Justice, Justice Sutherland, who had been in the audience, was conducted to his seat at the end of the left of the Chief Justice, where he was again welcomed, this time by Justice McKeen, who occupies the next seat.

## END OF HAMILTON MILL STRIKE IN VIEW

That the strike at the Hamilton Mfg. Co., which has been going on since Feb. 13 will be settled very shortly is the prediction made today by Chairman John Hanley of the strike committee. Mr. Hanley again conferred with Agent Milliken relative to the reinstatement of the strikers at the mill and at the close of the conference Mr. Milliken stated that as fast as there is employment for more operatives, the strikers will be given the preference. The agent also indicated that changes which he is now contemplating in the mill will bring about a big increase in his working force.

Although an agreement has been reached between Agent Milliken and the strike officials by which the strikers will all return to work eventually, the strike has not yet been officially declared ended, and when questioned this morning relative to people working where a strike is on, Mr. Hanley stated that the strikers who are now employed at the Hamilton have been granted a special permit to return to work. "We cannot declare the strike ended," he continued, "until all have gone back to work, for as soon as the strike is officially ended, then the strike benefits are cut off, and then much as we still have a great many men and women out of work, it is our duty to carry them on our payroll. As soon as all have gone back to work, a meeting of the Lowell council will be called and the strike at the Hamilton will be officially ended."

Frederic M. Knight, agent for the state board of arbitration and conciliation, came to Lowell this morning and conferred with John Hanley and Organizer Thomas J. Regan of the United Textile Workers of America. He later held a brief conference with President Charles E. Anderson of the Trades and Labor Council. "The nature of the conference was not made public, only it was stated that it had to do with textile conditions in Lowell."

Walter C. Roche, president of the Banners union, which is a recent seceder from the United Textile Workers of America, takes exception to the story published in yesterday's issue of The Sun, in which it was stated that the Banners union had become affiliated to the One Big Union. Mr. Roche admits that a majority of the members of the union have voted to withdraw from the U.T.W. of A. and says for the present the union will go along as an independent body. It is possible that later the organization will join the Amalgamated Textile Workers.

WED AT LAST

Because they couldn't read nor write, Mr. and Mrs. Thomas Whitfield, London, never knew the document they cherished 30 years was a marriage license, not a certificate. So now they have just been married all over again.

## THE ADVENTURES OF JACK DAW

Every youngster in Lowell will be interested in the new picture story which starts in The Sun tomorrow.

### JACK DAW'S ADVENTURES

This is a story, told in words and pictures, that carries a little American boy through many interesting and thrilling adventures.

Start reading it right away and you'll enjoy what happens to Jack in his hunt for treasure gold.

## U. S. DREADNOUGHT AT GIBRALTAR

GIBRALTAR, Oct. 3 (By the Associated Press).—The United States dreadnought ship, with Vice Admiral A. T. Long, commander-in-chief of the European station, has arrived here. She will await the arrival of the cruiser Pittsburgh, to which the flag will be transferred, the Pittsburgh then becoming the flag ship of the American naval forces in European waters.

### DRESSMAKING CLASSES

Further registration for dressmaking and millinery classes will be held tonight at 7 p. m. at the A. Lincoln school. There are at present chances to join advanced or beginners' dressmakers' classes, and also millinery classes. Classes are held Monday and Tuesday and Friday and Saturday nights. Several days left before closing of these classes and women interested are urged to act tonight. No charge for instruction, is made and every woman over 15 may join regardless of what district she may live in.

### Starts Investigation

Continued  
from a copy of the list of signatures that appear on the petition which is now in the custody of the city clerk. Mayor Brown said today that he does not make the charge that a great many names on the petition are fraudulent, but simply desires to check them up and satisfy himself there is a sufficiency.

He did say, however, that he has received many reports that persons whose names appear on the petitions did not sign them and stated he has a number of affidavits to this effect.

The mayor is of the belief that the petitions can be called back from the city clerk and again given to the election commissioners for further examination if his post card canvass reveals a great many names of persons who deny having signed them.

The mayor says this in face of the letter which has been received by the election board from Frederick W. Cook, state secretary, stating that the charter question will be submitted to the voters of Lowell on state election day, Nov. 7. This letter received by the board yesterday.

Commonwealth of Massachusetts,  
Office of the Secretary, Boston,  
September 30, 1922.

Lowell Election Commission.

Dear Sirs:—I am in receipt of your letter of yesterday notifying me that a petition relative to the form of government known as the "Plan B" containing the requisite number of signatures and duly certified by the registrars of voters, has been filed with the city clerk of the city of Lowell.

The question proposed by the petition is: Shall the city of Lowell adopt the form of government defined as Plan B and consisting of a government partly at large and partly from wards or districts, with elections to be held annually, according to Chapter 43 of the General Laws relating to city charters? This will be submitted to the voters of the city of Lowell at the state election November 7.

Very truly yours,  
F. W. COOK, Secretary.

Commenting upon the letter, the mayor said he believes the state secretary is acting in good faith, but does not believe it precludes the possibility of summary action should information be secured that the petition does not carry a sufficient number of correct signatures.

"As I have seen it," said the mayor, "the petition looks bad and I really am surprised to hear so many reports that persons whose names appear on it did not sign it."

What it will cost to conduct this method of investigation is not known, but it is safe to say that the bill will be borne by the city. The mayor has had the post cards printed by the Tobin Printery on a requisition issued through the purchasing agent, thus making it a municipal matter.

The mayor thinks all cards should be returned to him some time next week and that will give him plenty of time to take action if he deems it necessary.

Despite the mayor's investigation to determine if possible the authenticity of signatures on the petition, it is a rather general belief that full authority regarding the petition is vested in the board of election commissioners and that when the board certified to the secretary of state that the petition, with the requisite number of signatures had been filed with the city clerk, the appearance of the question on the state ballot was assured. Further, the expression is heard that the mayor's investigation will avail nothing.

When Cornelius F. Desmond filed the petition a week ago yesterday he announced the names had been carefully checked and when the election commissioners completed their certification they announced that the petitions were "unusually good" from the standpoint of accuracy. Only 287 names were thrown out and the commissioners exercised every care in their work.

## FRECKLES AND HIS FRIENDS

## PREPARING FOR POLICE CONVENTION

Notices have been posted in the guard room of the police station calling attention to the fact that two meetings will be held tomorrow afternoon for the purpose of transacting business in connection with the police convention which is to be held in this city on the 18th and 19th of this month.

The first meeting will be one of the local branch of the Massachusetts Police association for the purpose of electing delegates to the convention. The meeting is called for 4:15 o'clock.

At 6 o'clock a meeting of the convention directors will be held at which time plans will be gone over having to do with the convention.

## BRITISH SOLDIERS IN LORRY AMBUSHED

DUBLIN, Oct. 3 (By the Associated Press).—A party of British military in a lorry was ambushed on the Dublin quays today, shots being fired at the party from nearby houses. The driver of the lorry sprang up and the members of the party escaped unhurt. Free State troops later arrested youth in whose possession a bomb was alleged to have been found.

## WORKS FOR CHILD MUST KEEP WELL

Mothers in a Like Situation Should Read This Letter from Mrs. Enrico

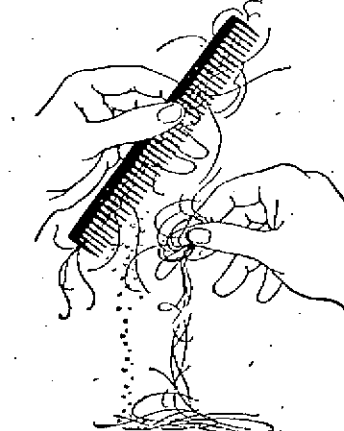

Chicago, Illinois.—"I took Lydia E. Pinkham's Vegetable Compound for a serious trouble. I had tried doctors and all kind of medicine, but nothing helped. At first I only felt the pain on my left side, but later I seemed to feel it on both sides. I am a power sewing-machine operator and have a little girl to support. I work in a tailor shop and that kind of work has been very slack this year and I am home part of the time. I do not like to take any chances, so I consulted my friends, and one lady said, 'Take Lydia E. Pinkham's medicine,' so I did. I have felt better right along and am in good enough health to go to work. I recommend your Vegetable Compound and Sanative Wash to all."—Mrs. Mary Enrico, 459 N. Carpenter St., Chicago, Illinois.

Often the mother is obliged to support her children and good health is necessary. Lydia E. Pinkham's Vegetable Compound is just the medicine you can depend upon. It is a medicine for women's ailments and the relief it brought Mrs. Enrico it may bring to you. Keep well by taking Lydia E. Pinkham's Vegetable Compound.

## A SIN TO LET HAIR FALL OUT

35c "Dandarine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Hurry! It's your duty! Each day you see a little more hair falling out and you are making no effort to avoid hair loss. What a pity. Falling hair means your hair is weak, sick, possibly dandruff is strangling it, or the hair root pores in the scalp are not firm and tight, thus wasting the hair-growing oils.

Dandarine almost instantly stops falling hair of men or women. An cleans every particle of dandruff away, then the hair takes on new life, vigor and strength to grow strong, thick, and long.

Dandarine is delightful—not sticky or greasy. Go to any drugstore now and get a bottle. Use it. Have healthy, heavy, beautiful hair and lots of it.—Adv.

## REDUCTION IN COTTON PRODUCTION

WASHINGTON, Oct. 3.—A reduction of 440,000 bales during September in prospective cotton production was announced by the department of agriculture's forecast, issued today, placing the crop at 10,125,000 equivalent 500-pound bales. The decline in the condition of the crop from Aug. 25 to Sept. 25 was 7.0 points, compared with a 10-year average decline of 6.8 points.

### Bars in Path to Full Prosperity

Continued

share to solve the tragic questions that are weighing upon the world? "One thing is certain," he said, "if we cannot get on our feet, we cannot be able to give us our choice as to whether we should rather give up freely and for all time, five billion dollars, or give up the lives of several hundred thousand of our sons, there could have been no hesitation as to our choice."

"I have determined that choice," he determined that Great Britain and France should give up the lives during that first year and that we should furnish, not our blood, but our money; taking, however, in place of it the promises-to-pay of our allies."

### Seeks to Console Farmers

Mr. Lamont sought to console the farmers, who, he said, complain that "though it is a bad season for crops, our net money gain will be small."

"I don't attempt to argue the point of lower prices," continued the financier. "But I never knew a country to go broke because of its abundant crops. In the long run, the farmer, like all of us, will fare better on a moderate price scale, with small fluctuations."

### Strikes Serious Obstruction

Labor strikes rise as one of the most serious obstructions to prosperity Mr. Lamont declared.

He asked his audience to "remember that in this country there are still traces of arrogance among employers, as there are manifest signs of arrogance in labor."

### Bonus Vote Brought Relief

President Harding's veto of the bonus bill, "with its threat to tax billions more out of the American people and distribute it in such a way that probably no one would receive real benefit," temporarily leaped that hurdle and "created such a feeling of relief," said Mr. Lamont.

Of the tariff he said: "We shall be fortunate indeed, if we do not find that in practice it protects a lot of industries that do not require protection, and cuts off from our farmers and manufacturers a lot of foreign markets that are ready to buy our commodities."

### Invincible Forces Save Europe

"Even with the sick man of Europe, the Turk, suddenly alive and kicking the Greeks all around the lot, with the Greeks, Germany, and Austria, what then, is the danger, declared Mr. Lamont? "It is dangerous, declared Mr. Lamont, "to say that Europe has 'gone all to pot.'"

Invincible forces are saving Europe, he added, saying "Politically Europe may be in the doldrums or worse; but economically I, for one, believe she is on the mend."

### Reparations, said Mr. Lamont, has now reached a stage in the public opinion of both America and Europe secondary to interlarded indebtedness because, he declared, it is generally recognized that Germany cannot or will not ever pay anything like the reparations total fixed in the Versailles treaty."

### Quit Fooling Ourselves

"Now let us as practical men, determine what if any, of these debts (called debts to America) are, in any event uncollectible and so should be written off, in order to quit fooling ourselves," he suggested to the bankers. Let us decide what others of these debts are good in part, but must be given ample time to pay; emphatically, let us figure whether the payment of these debts—which inevitably must mean a great increase in our import trade—is going to prove an asset or a liability for American business men."

## TURKS CELEBRATE VICTORY

Group of typical Turks at Constantinople manifest their happiness as they learn the latest news of the successes in Asia Minor of Mustafa Kemal Pasha, Turkish nationalist leader.

## BLAME PROPAGANDA FOR MUTINY OF JUAREZ

WASHINGTON, Oct. 3.—Propaganda originating in the United States is blamed for the recent revolt of the Mexican garrison at Juarez, in a statement issued today by the Mexican embassy here.

"The official information tends to show," said the embassy's statement, "that the mutiny of Juarez is due to propaganda emanating from the United States. The present situation is normal and business is carried on as usual."

## FAIR WEATHER

### FOR OPENING GAME

NEW YORK, Oct. 3.—Fair weather for the opening game of the world series tomorrow was predicted in the government forecast today. For the last ten days New York has enjoyed moderate temperatures and steady sunshine.

"In this vicinity," said the local forecast, "fair weather is indicated for the next 36 hours with light variable winds, and a slight tendency to cooler."

### STARTER MURPHY BACK

Starter Murphy is back on the job in Merrimack square again after a two weeks' vacation that, from all appearances, did him a world of good.

## PICTURE CENSORSHIP

On the ballot at the state election among several other questions, will be one on state censorship of moving pictures. This matter has been agitated for over a year, because for a time some unscrupulous picture producers had been flooding cheap theatres with films dealing with sex problems and portraying the commission of crimes such as highway robberies and murders. The moral sense of the public was shocked and there came a demand for state censorship. Under the threat of such demand, the objectionable features were largely eliminated, so that for some time past we have been getting fairly decent shows and the manager who demands the ultra sensational cannot find it at any price. That is a very gratifying change; and it should induce our citizens to vote against the proposed state censorship, which would be expensive and likely to be used for grafting purposes by corrupt officials. But on the merits of the question, regardless of the improvement noted, this proposed measure should be defeated.

It is generally conceded that the picture producers should be given a chance to show their sincerity of purpose when they say they will avoid the objectionable and lift the picture business to a higher moral plane, and a higher degree of interest, instruction and utility.

It is for the attainment of this higher ideal that the producers have placed former Secretary Hays in charge of the business which he deems improper or undesirable. Of course there is much difference of opinion even on this point so that not even he will be able to please everybody; but if he overcomes the well grounded objections raised against suggestive films or those appealing to prurient tastes, then he will have accomplished all that can be expected.

It is very generally conceded that every citizen should be free to speak, write or publish anything he sees fit, provided he violates no law in so doing and that he does not trespass upon the rights or the liberties of others.

Newspapers are free to publish what they please, subject always to the laws of libel; and most people have reached the conclusion that the same right should be conceded to the picture producers. That would eliminate the idea of a state censorship in advance of the public exhibition. It would place a serious handicap upon the freedom of picture production if a law were passed prohibiting every picture film regardless of character, without a special permit by the censor. It can readily be seen what an added expense and source of graft such a law would entail. The constitution provides that publications, whether typographical or pictorial, which in the long run are in the same class, shall not be restrained in advance but that all shall be subject to prosecution afterwards for any infringement of the law. That, it seems, is as it should be, and hence it is advisable to vote "no" on the question of state censorship.

The criminal law which we recently quoted in this column is ample to prevent the exhibition of indecent shows and if it is rigidly enforced there can never be any need of censorship in advance which might do more harm than good.

## PRESENT LAW INEFFECTIVE

The sad tragedy enacted at city hall last Friday calls attention once more to the necessity of greater restriction upon the sale of firearms. The legislature made an attempt this year to impose greater restrictions on such sale and the result of its efforts is given in Chapter 485 of the acts of the General Court for 1922; but it appears that the conditions imposed are not sufficient to prevent the purchase of dangerous weapons even by desperate characters.

One condition is, that the dealer must be licensed to sell firearms, that he must keep a record of such sales, that the purchaser must give his name and address. These are the only conditions imposed on a citizen; but in addition an unnaturalized alien must have a permit to carry such weapon. Any person wishing to deceive the dealer can easily do so by giving a false name or by having some other person make the purchase. It appears that the restriction imposed upon aliens who are not naturalized does not prevent them from securing firearms, just as the condition that they must have a permit to carry such weapons does not prevent them carrying them in violation of the law, as proved by the number of persons found armed with revolvers when arrested on other charges.

The law is not sufficiently drastic. This matter of pistol toting is one that affects the entire country and calls for uniform action to prevent the easy sale and delivery of such weapons often for criminal purposes as the sequel proves.

Chief Magistrate McAdoo of New York says there are more persons carrying pistols in New York and Chicago than in all Europe. The free sale and use of firearms, he says, is one of the greatest problems of the police. The penalty for carrying a revolver without a permit, if made stiff enough, would help and some effective obstacles should be thrown in the way of persons seeking the purchase of firearms. A delay of one week, a permit and a recommendation by the police should be required in order to afford time for investigation of the intending purchasers and to prevent desperadoes from purchasing weapons with which to commit homicide.

## IS WAR AVERTED?

For the present the threatened war in the Near East has been averted, although only on condition that the

demands of the Turks be conceded. Komal, the Turkish leader, demands that the former possessions of Turkey on the European continent shall be restored; and it is understood that the allied conference assembled at Mudanya today, will yield to the demands of Turkey rather than precipitate a war for which the allies are wholly unprepared and which might develop into a "holy war" with the 300,000,000 Mohammedans on one side and the leading Christian nations on the other. It is quite probable, however, that in a conflict between Turkey and the allies the Soviets of Russia would side with Turkey. It is well, therefore, that the allies shall avoid a war with the Mohammedan forces, provided they can arrange for the safety of the Christians under Turkish control and the freedom of the Dardanelles.

Already Russia has protested against the blockade of the straits by England and thus even at this stage, is seen the readiness of Russia to enter into the conflict on the side of Turkey, but ostensibly in her own interest.

In the years to come the presence of Turkey in Europe will remain to plague the other nations and ultimately to incite another war that will involve the greater part of the entire world. In the interests of peace in Europe it is essential that Turkey be banished from that continent; but at present the allies are not prepared to undertake the task; and it would be difficult to predict when they will unite upon a policy favoring the expulsion of the Turks. From the Crimean war in 1853 until 1914 England defended the integrity of Turkey but just as soon as England dropped Turkey, France joined her through an alliance and this difference between two powers that fought side by side in the World war finally culminated in the present trouble with Turkey. War with Turkey may be postponed, but it must come eventually if European civilization is to be maintained.

## FOR DAIRY BY-PRODUCTS

That the scientific world is neglecting a vast opportunity to discover uses for dairy by-products was the statement made in an address several days ago in Springfield by Prof. H. P. Van Norman, president of the World's Dairy Congress.

For every pound of butter we eat, three pounds of milk solids are produced which are highly valuable for human food, he said. At present, all except a trifling part of these solids are used at comparatively small profit in the feeding of calves, hogs and chickens. In 1921, nearly 36,000,000,000 pounds of milk were used in the manufacture of butter, yet only 1,700,000,000 pounds of butter were turned out. The dairy industry is confronted with the necessity of developing uses for its by-products. There is a steadily growing market for skim milk powder. This was opened up by the fact that skim milk in the form of powder would bring more than could be gained by feeding the milk to the farm animals. This is suggestive of the opportunities for helpful scientific investigation which lie ahead of the members of the dairy association and its affiliated organizations.

## CIVIL SERVICE RETIREMENTS

There seems to be serious ignorance in some quarters concerning the working out of the retirement clauses under the civil service laws. The matter is simple enough as outlined by the Civil Service commissioners in the printed rules governing such matters. The section relating to retirement reads as follows:

"Classified employees who have reached the retirement age and have served 15 years are entitled to retirement with an annuity. The retirement age for railway mail clerks is 62 years, for mechanics and postoffice clerks 65 years and for all others 70 years. A deduction of 2 1/2 per cent is made from the monthly salary to provide for this annuity, which will be returned to persons leaving the service before reaching the retirement age with 4 per cent interest compounded annually.

On the ballot at the November election will be a question as to whether the district attorney of every county in the state shall be a member of the bar. That question should be decided in the affirmative as it would be absurd to select any but a recognized lawyer to conduct the prosecution of criminal cases. The local scandals that have disgraced Middlesex county should be a warning against any further foolishness.

The chief requisite for sustaining the period of prosperity now dawning on this country is efficient transportation and that will hardly be possible during the coming months owing to the lack of cars and the poor conditions of many locomotives as a result of the neglect due to the strike.

Paderewski may be on his way back to Poland to play a patriotic symphony, but we firmly believe that a good clear call from Lowell opera enthusiasts would bring him to the stage of that new Memorial Auditorium.

Students of the market place may not know that the "strictly fresh" eggs which are really fresh are bringing 80 cents a dozen in Boston and vicinity, and not many to be had at that price.

The republicans are importing their heavy artillery to meet the democratic onslaught. We are now in the calm that precedes the storm.

That Plan B is the monkey wrench thrown into the gears of the municipal machinery.

Lenine appears to be done talking through his hat and is now ready to pass it around.

## SEEN AND HEARD

Many going to work don't do it after they get there.

Burbank has a new white peach. You can't say that man's efforts have been fruitless.

Haynes asks \$2,125,000 to keep the U. S. dry next year. About \$3,000,000 is being spent daily to keep it wet.

In Louisville, Ky., a pickpocket robbed a girl in the sheriff's office. Thirty deputies present escaped without loss.

A Thought  
See this last and this hammer (said the poor cobbler); that last and that hammer are the best two friends I have in the world. Nobody else will be my friend because I want a friend—Oliver Goldsmith.

Today's Word  
Today's word is debenture. It's pronounced—de-ben-shure, with the accent on the second syllable. It means—a certificate showing money is owed, signed by the debtor. It comes from Latin—debentur, owe. It is used like this—"The allies will issue debentures for the money they owe the United States."

Tagging the Dozer  
"I can't do a thing with Jonea," said the manager. "I've had him in three departments and he does all day long." But him at the palama counter suggested a proprietor. "And then fasten this card on him: 'All our night-clothes are of such superior quality that even the man who sells them cannot keep awake.'"

Bad Time For It  
"Adventurous life I've had," said the out-of-work sailor to the kind-looking old gentleman. "I suppose so," said the old man, "and you're a little while ago. When I came to the doctor said he'd left a sponge in my nose and never said a word. And it's there now." "Really?" said the old man. "No pain at all," answered the sailor, and then added, "Well, but I do get terribly thirsty."

Mother-in-Law  
She has a marvelous talent for timing her visits. She always arrives a day too long. She always brings cheer and helpfulness and a big basket of things from the old farm. She gets along beautifully with her sons and daughters-in-law. She knows how to please her grandchildren without spoiling them and ruining their dispositions. She knows how and when to wail and when to cheer and when to make beaten biscuits and fry a chicken. She has perfect health and a young mind. She is the perfect mother-in-law. There is always the chance that you will get her if you marry often enough—Life.

The Poor Bachelor  
The disadvantages of being a bachelor is that when other people's children are put into your arms you never know what to say. George Vinton was a bachelor and for this reason was always putting his foot in it when he visited the parents of a new baby. It happened again. The mother of his new nephew, noisy bundle of humanity, wriggling, gazed proudly in silence for a few seconds, and then asked: "Whom do you think baby takes after?" "After the mother," George Vinton said, "I was confused. 'Er—um—he's not very intelligent looking, is he?' he stammered. 'But I think he's like both of you!'"

Growing Car Entrances  
It will be noticed that the advice of the street railway company to people who are supposed to ride close to the edge of street cars has been changed. It is no longer: "Plenty of room up forward," but now: "Plenty of room way back." No wonder, when the request for assistance from the riding public in keeping the front vestibule as free as possible from overcrowding is a reasonable one and that should have the cooperation of patrons. Not only is the safe operation of the cars considerably affected when people jostle the operator, but the chance of accident to people in the highway is increased when his clear view on both sides of the car is obstructed. Besides that it is not pleasing to people who want to get on or off a car to have to force their way for themselves and leave a more open space for the exits for others by taking places inside the car or on the rear platform when the seats are full. The reasons against crowding the front vestibule given by the car company are all good ones. This is not a big thing, but cooperation in making it effective will add to the comfort of all. Let us all do our part. The highway is increased when his clear view on both sides of the car is obstructed. Besides that it is not pleasing to people who want to get on or off a car to have to force their way for themselves and leave a more open space for the exits for others by taking places inside the car or on the rear platform when the seats are full. The reasons against crowding the front vestibule given by the car company are all good ones. This is not a big thing, but cooperation in making it effective will add to the comfort of all. # Gold-Seal Congoleum Week

## The Floor-Covering Sale of the Year

Congoleum Week is in full swing. Yesterday thousands of housewives visited the stores listed below and took advantage of the special reductions prevailing this week only on America's most popular floor-covering.

This sale is a money-saving opportunity you can't afford to miss. You will have no difficulty in finding Gold-Seal Art-Rugs that are exactly suitable in pattern, coloring and size, for any rooms in your home that need new floor-covering. Or, if you prefer an all-over floor-covering, you will find many attractive designs in Gold-Seal Congoleum By-the-Yard.

### Waterproof — Sanitary — Durable

You need only to read this partial list of Congoleum's advantages to understand why this modern, sanitary floor-covering is preferred to woven rugs in millions of American homes.

**DESIGNS:** No other low-priced floor-covering reproduces so artistically the beautiful rich tones of fabric rugs as does Congoleum. The patterns win the admiration of housewives everywhere.

**EASY TO CLEAN:** Just a light mopping leaves the smooth, sanitary surface spotlessly clean—the bright colors gleaming like new. No tiresome sweeping or beating is necessary.

**NEEDS NO FASTENING:** Congoleum lies perfectly flat on the floor without fastening of any

kind. It never curls or "kicks-up" at the edges.

### Satisfaction Guaranteed

All the Gold-Seal Congoleum included in this sale is fresh new goods, and is fully guaranteed by the Gold Seal pledge: "Satisfaction Guaranteed or Your Money Back." This Gold-Seal appears on the face of all genuine Congoleum. Look for it when you buy. It protects you absolutely.

### Only a Few More Days

Remember, Gold-Seal Congoleum Week ends on Saturday night. Then these bargain prices will be withdrawn. Make your selections at once. Don't allow this great money-saving opportunity to slip by without taking full advantage of it.

It's tea drinkers have given Lipton's Tea the highest recommendation. It has the best sale in the world.

From the tea gardens of Ceylon to the tea cups of America, growing, picking, curing, packing and shipping is under Lipton supervision.

Ask your grocer for Lipton's Yellow Label Tea; accept no substitute.

American Home Office and Eastern Packing Plant of Thomas J. Lipton, Inc., Hoboken, New Jersey.

You will be delighted with Lipton's new Yellow Label Coffee. After years of experimenting Sir Thomas J. Lipton is able to say, "I have developed a blend of coffee that is a worthy associate of Lipton's Tea. I have given it my name and I believe that it has no superior in the world." A new screw-lock-top can keeps Lipton's Coffee fresh before and after opening. The last spoonful is good.

## HOME ECONOMICS DEPARTMENT

Lowell High School House

Economics Department Greatly Enlarged

Many New and Striking Features—Department in Charge of Miss Driscoll

More Than 150 Girls Enrolled

—Many Subjects to Be Taken Up

Twelve years of continuous training and service in the important field of intensive teaching of home economics in the Everett (Mass.) high school has fitted Miss Susie G. Driscoll, chief of the greatly enlarged and adequately equipped department of the same name in the Lowell high school, with ample requirements for supervising one of the most important branches of school work to be regularly conducted for the benefit of Lowell female pupils in the year to come.

The varied and complete program to be followed in this department of intensive training for the young women of Lowell, many of whom are destined to become the wives and mothers

of future years, is one that has been very carefully considered and arranged and its varied offerings daily discussed and debated before final acceptance. It is one that should interest every citizen of Lowell who has any consideration for the wonderful benefits to be derived from this home economics department, sure to move a tremendous advance in modern educational standards affecting the future health and prosperity and general living conditions of girl graduates in all walks of life.

Leading the van of similar instructors in this work for the betterment of homes, Miss Driscoll comes to Lowell not a stranger, notwithstanding her absence of 12 years while teaching in Everett. She is a native of another community, yet most of her life has been spent in this city. She was at one time the energetic principal of the Parker avenue school.

**Home Economics Program**

The home economics program at the high school promises to become notable, with a wide variety of subjects to be taken up by Lowell high school girls. More than 150 are enrolled in this special departmental school work already. The list of work to be followed includes such lines dear to every wholesome womanly heart, as home cooking, marketing, serving, food, house management, and sanitation, home nursing, sewing, dressmaking, embroidery, crocheting, knitting and millinery. The last six items, by the way, should be included in the special department of home management and sanitation. And this work is to be conducted in conjunction with a wide variety of related subjects, such as, textiles, art, household arithmetic, household physics and household chemistry.

The home economics department, led by Miss Driscoll, has four assistant instructors, all highly competent for the performance of the multitude of tasks ahead. They are Miss Mohan and Miss Regan, cooking experts, and

Mrs. Dutton and Miss Boyle, in charge of needlework.

The full program to be carried out here at the Lowell high is not yet in full swing, as one or two of the full-time teachers of the well-lighted and commodious section where this department is to progress have not yet been fully occupied. It won't be long, however, when all of the mechanical equipment including the electric and gas ranges, the 32 gas plates, the ample sized porcelain sink, wide range tables and other culinary equipments will be made ready for the extensive work of daily instruction to come.

### The Food Laboratory

The food laboratory of the home economics department is really one of the finest of any similar institution in the country. There is a specially equipped model dining room for the serving of faculty luncheons. But one large, round oaken table and four chairs grace the cozy corner, which has a sideboard built in one wall and stocked with graceful dishes of utensils. Young housewives of the future will have ample opportunity later on to "serve dinners" in this "examination" room, and the work will be closely watched by the instructors.

There is also a room for the study of home nursing, soon to be equipped with proper furniture but as yet without articles for the work required. Apart from the quarters for the study of household duties, cooking, etc., and on the upper floor of the new school building, wholly apart from the lower floor division of the home economics work, are the sewing and millinery rooms—three in all—with worktables, cutting tables, sewing machines and an electric ironing set. The display closets are handsy by. In one corner rests an old time spinning wheel, presented to the department by a lover of the Lowell high school. This ancient relic of former days when yarns were spun over the big wheel is an interesting relic in itself and attracts much attention. It is a curious exhibit for the pupils of the 20th century, who work near at hand with modern sewing machines and have never known a time when they were manufactured by machines with almost human ingenuity.

There is one fitting room which will be useful, of course, when articles that delight femininity are manufactured very carefully under modern methods of dressmaking. The last room here on this floor can be turned in a jiffy into two single rooms by the mere closing of folding doors, making one room for dressmaking instruction and the other for millinery work when ever it is necessary to separate the quarters for purposes of the kind. The lighting arrangements are excellent, in order that all needles may be threaded quickly. In one room alone there are more than a dozen lights of both the direct and indirect kind.

### Dinner Exhibitions

Later in the year, when the work of the students in the home economics department becomes such that it can be offered for public inspection and appraisal, exhibitions will be held, in which some of the best work in all the various lines of household duties covering a wide range of scholastic design and manufacture will be displayed, where older folks may see and learn something of what is being done in this wonderful department of school work at the Lowell high.

While a great deal of the work in the home economics division of the school curriculum is along the lines referred to above, the major of the home-kitchen and proper foods is of great importance, too, and naturally the course in all branches of cooking takes high rank with that to be found in the other departments governing the conduct of an up-to-date household.

Great plans are ahead for the pupils who start the cooking class work in its features almost without number. First one, with the present refrigerators, the aluminum kitchen utensils which predominate, the double gas range, the quarters where the foods are kept, the cleanliness which is everywhere, and the comfortable seating arrangements provided for the boy and girl pupils who work in the kitchen.

The expert "faculty" in charge of this great basement dining hall for the school children of Lowell includes Mrs. Cornelia Korte, "presiding genius" of the kitchen, and her efficient aids, Mrs. P. J. Lynch, Mrs. Anna McCabe, Miss Rose Barry, Mrs. Michael Lynch and Miss Annie Maguire.

Parents who sometimes wonder what their boys and girls really have to eat when purchasing so-called "school luncheons" at the high school dining hall would do well to read this menu for one meal that week—and this menu is changed daily, of course:

For the pupils—Tomato bisque, fruit salad (pineapple and apple), peanut butter, sliced ham and chopped ham sandwiches, hot gingerbread and whipped cream, cookies, ice cream and chocolate.

For the teachers—Tomato bisque, roast lamb, mashed potatoes and gravy, escalloped macaroni, fruit salad, bread and butter, cookies, pineapple, apple ice cream and coffee.

Tomorrow it will be something else, and the next day still another new variety—something new, as it tries each succeeding day to keep young America's appetite whetted and in proper trim.

### Have Good Appetites

And young America's appetite is O. K., according to the staff of employees in this modern school luncheon. Witness more than 300 quarts of milk disappearing daily down the throats of these school boys and girls—1500 of them and more. Nearly 100 loaves of bread daily, too. The figures sound assuring, you will agree. But there are ample bread and cake tins, and the supply of milk promises to be never-failing.

But that automatic dishwashing machine is very handy when the grand rush from upstairs to the dining room in the basement is all over. The two steam tables have to be cleaned, likewise the coffee, hot water and chocolate urns kept shining like silver, the baking oven made ready again for the next day's food supplies, and the Vulcan double range placed in order in the side and out for the work that only ceases temporarily when Friday afternoon rolls around.

The modern, roomy porcelain sinks clean easily. The immense drying racks are filled, and then the week is over, with one exception.

Someone must keep tabs on the kitchen supplies, count up the number of bags of flour left, order future necessities, and all the other things that enter into a dining room foundation. And so the work is really never ended. For there is always someone to do down there in that wonderful place where the boys and girls of Lowell say they get real home cooking and plenty of it!

And back of all this wonderful work, including this dailiness performance on the part of these splendid women

## DR. TRUE'S ELIXIR HAS BEEN USED FOR OVER SEVENTY YEARS

### Mothers: Read what this Woman did for Her Children

Mrs. Bradley and Children

Mrs. Alexander Bradley of Danbury, Conn., says: "After 14 long years trying different remedies I have at last found a good medicine—Dr. True's Elixir. I was nearly discouraged. I was giving the oldest girl something nearly every night, but now I keep a bottle of Dr. True's Elixir handy, and only give it occasionally. I have tried so many things, but now as soon I see signs of worms I give Dr. True's Elixir for quick relief."

In another letter Mrs. Bradley writes: "My son, 14 years of age, was always troubled with worms when small and Dr. True's was unknown to me then. I always have it on hand now. Now please print this letter so other anxious mothers may know the good results which follow Dr. True's Elixir for children suffering with worms and constipation, as I cannot recommend it too highly."

A mother of six children writes: "My baby was very sick and a friend of mine suggested trying Dr. True's Elixir. Now I have six children and am never without Dr. True's Elixir, the True Family Laxative and Worm Expeller in my house."—Mrs. B. N. Gile, West Newbury, Mass.

Mrs. H. N. Roberts, 501 Asylum St., Flint, Mich., wrote, "My little girl is relieved of her worms." And in a later letter wrote: "Baby is fine and it was your medicine, Dr. True's Elixir, the True Family Laxative and Worm Expeller, that helped her."

Worms are quickly driven out of the system and good health restored if you use Dr. True's Elixir.

## IF MOTHERS ONLY KNEW!

THOUSANDS OF CHILDREN SUFFER FROM WORMS AND THEIR MOTHERS DO NOT KNOW WHAT THE TROUBLE IS

Look at your child NOW. If you have the least suspicion that any of these symptoms are reflected in any of your children, start giving Dr. True's Elixir at once. Signs of Worms are: Constipation, deranged stomach, swollen upper lip, offensive breath, hard and full stomach with pains, pale faces, eyes heavy and dull, short, dry cough, grinding of the teeth, tongue coated and covered with little red points, starting during sleep with troublesome dreams, slow fever.

Mothers—Dr. True's Elixir has been given children for four generations and it truly corrects child ailments. Try a bottle today. It is good for adults, too.

Mrs. William G. Bonin of Caddo, Oklahoma, says: "We used Dr. True's Elixir for our children for the last 12 years and certainly know the value of it." You can buy Dr. True's Elixir wherever medicine is sold. Pleasant tasting—gentle acting.

Mrs. Henry Johnson of 820 West Hayward Ave., Baltimore, says: "I have bought Dr. True's Elixir for over 10 years and know it is good." She uses it to rid her children of worms.

Mrs. Anselme Lamarre, 29 State St., Sanford, Me., wrote: "My daughter, Gertrude, had dizzy spells and could not even go out, for she always complained of being sick. She used your worm expeller. She never had any fits since. I feel very grateful to you."

## CHARGE LIQUOR THEFTS TO U. S. AGENTS

WASHINGTON, Oct. 2.—Charges that "certain representatives of the department of justice" converted to their own use large stocks of liquor seized in the enforcement of prohibition laws, were made in a special report filed yesterday by the District of Columbia grand jury.

The report asserted that the liquor was removed from the warehouse used by the department for storage purposes and was used by the officials involved for their private consumption, for distribution to personal friends and as gifts to favored institutions. There was no charge that any of the liquor was disposed of for financial gain.

Illegal withdrawals covered in the report were declared to have occurred between July 20 and Sept. 11, 1922. The jury did not name the individuals who were involved, but declared that their conduct "cannot be too severely condemned."

At the department of justice officials indicated that no action was in prospect since the offenses complained of were by "former attaches of a former administration of the department."

William J. Burns, chief of the department's bureau of investigation, confirmed that large stocks of liquor held in the custody of the department had "disappeared" between the dates mentioned in the grand jury report.

"The first instance of such a situation," Mr. Burns said, "came to him when counsel for a defendant in a liquor case which had lapsed under the statute of limitations filed claim for return of the same cases of whiskey involved. Mr. Burns said he ordered that the property be returned and was then informed that it was no longer in the warehouse. An inquiry was instituted and the result voluntarily submitted to the grand jury, according to Mr. Burns.

Officials of the department estimated that "several hundred cases" of assorted liquors were removed illegally from the department's evidence cache. The value was placed at upward of \$100,000 by D. T. Wright, counsel for Frank Burch, one of the interested owners. Mr. Wright recently filed suit against Frank Burch, ex-chief of the department, for recovery of the property.

Investigator, P. J. Ahearne and Henry P. Alden, employees of the department, charging that they had unlawfully removed his client's liquors from custody and converted them to their own use. The suit is now pending in court, according to Mr. Wright.

### BON MARCHE TO SELL PENROD CLOTHES

It will be good news for the ladies of Lowell and vicinity, as well as their mothers, to know that Bon Marche has decided to sell the celebrated Penrod clothes for boys.

"Frederick Barry wears Penrod clothes and he thinks he's great. Here's what he says: 'Boy, there is nothing that can touch 'em for looks or for wear. I wear them all the time and I ought to know—and they don't cost much either.'"

And "Frederick" is right. They combine quality with style, plus excitement of the wonderful Penrod clothes. If you didn't go to see "Frederick," his celebrated photoplay "Penrod," be sure to visit the Bon Marche store and see the wonderful Penrod clothes. Watch for the advertisement announcing the arrival of these suits.

### GOVERNMENT JOBS OPEN

United States civil service commission announces it will conduct an examination soon to fill a vacancy as junior railroad engineer. Successful candidate will be assigned to service at Camp Alfred Vahl, N. J.

Testing to the health of our boys and girls, is the home economics department supervisor, who watches everything, sees everything and goes about her tasks in a way that calls for nothing but the utmost praise for a public welfare duty heartfully and joyfully performed with results that speak for themselves.

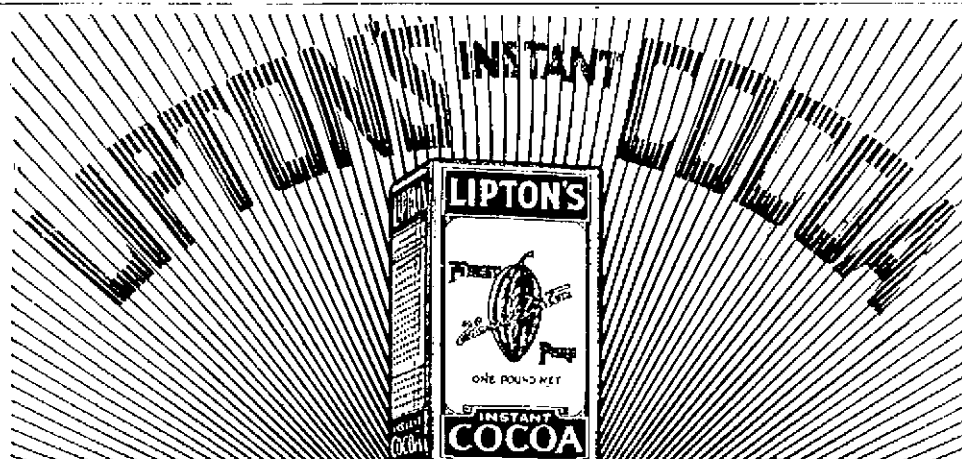

## PARKER FUND LECTURE TICKETS

The Parker fund lecture tickets are not yet ready for distribution, as a great many people have been led to believe. A short time ago, it was announced in the newspapers that a series of lectures would be given in

the Auditorium and the rush for tickets started immediately. They have not even been prepared as yet and will not be for some time. Tickets will be issued in seasonal and individual form as the person or persons require, but a ticket is not an essential requirement for admission.

**FOOTBALL MANAGER WANTED**

The Lowell Textile school football team has issued a call for candidates for the position of assistant football manager. The worth of assistant manager means preparation to manager-in-chief next year and entitles the incumbent to his letter. The present manager is "Jimmy" Valentine.

Here's a worthy brother to Lipton's Tea and Coffee  
*Thomas Lipton*

"WHEN I can produce a perfect cocoa, I'll make it," said Sir Thomas J. Lipton. That was years ago.

Today those conditions have been met. An entirely new process has been devised. This process does three vital things to improve the food value and flavor of cocoa.

It removes the tasteless, useless shells; it retains more of the rich nutritious cocoa butter. It thoroughly roasts and

blends the cocoa beans, giving Lipton's a flavor and fragrance that is superior to any other cocoa.

You'll find this new and better Lipton Cocoa richer, distinct in taste, and with more of that chocolate quality than any cocoa you have tasted, and it actually costs you less, because only half the usual quantity need be used.

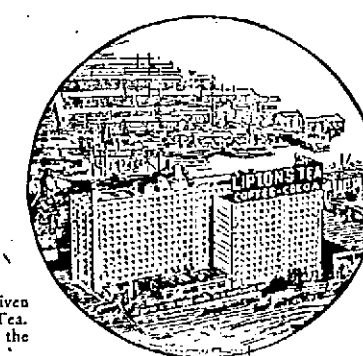

It is called Lipton's Instant Cocoa because it dissolves instantly.

Look for the signature of Sir Thomas J. Lipton on every package of tea, coffee or cocoa you buy—this

*Thomas Lipton*  
TEA COFFEE AND COCOA PLANTER, CEYLON

Ask your grocer today for a package of Lipton's Instant Cocoa; if he hasn't it in stock, he can get it blended for you. Accept no substitute.

THOMAS J. LIPTON, Inc., Hoboken, New Jersey  
Chicago San Francisco Toronto New Orleans

The world's tea drinkers have given their endorsement to Lipton's Tea. Lipton's is first choice! It has the largest sale in the world.

From the tea gardens of Ceylon to the tea cups of America, growing, picking, curing, packing and shipping is under Lipton supervision.

Ask your grocer for Lipton's Yellow Label Tea; accept no substitute.

American Home Office and Eastern Packing Plant of Thomas J. Lipton, Inc., Hoboken, New Jersey.

You will be delighted with Lipton's new Yellow Label Coffee. After years of experimenting Sir Thomas J. Lipton is able to say, "I have developed a blend of coffee that is a worthy associate of Lipton's Tea. I have given it my name and I believe that it has no superior in the world." A new screw-top lock-top can keeps Lipton's Coffee fresh before and after opening. The last spoonful is good.

Is \$8.50 a month worth saving?

**TACO**  
WATER-HEATER  
Use the heat you have already paid for.

TACO can be attached to any heating plant. The external TACO (shown above) is designed for steam or rapid water. The Universal TACO, for hot-water and hot air furnaces, is set in the fire pot itself.

TACO comes in different sizes to fit the requirements of any home. Price \$8.50 and up, plus installation. Write for booklet.

This represents the average monthly bill for gas water heaters.

You can save that amount each month during the coming winter with TACO—the hot water heater that uses the heat already paid for.

Gas or coal heaters are a splendid asset, but in winter they make for an added expense that TACO eliminates.

While your heating boiler is warming your home, it is false economy to use still another fire for your hot water. TACO Water Heater saves enough money to pay the running expenses of your gas heater or coal heater in the summer.

TACO is attached to your present heating boiler, and uses either its live steam or boiling water to give you domestic hot water instantly—day or night—any winter long. No extra trouble—no extra fire—no added fuel expense.

Ask your nearest Plumber or Heating Contractor for an estimate.

**DEALERS:** If you haven't TACO in stock, your jobber, or the nearest branch office of the leading boiler and radiator manufacturers, can supply you.

**LONDON, Oct. 3.**—The fact that the British minister in Athens wrote his name in the visitors' book at the royal palace during the royal wedding, as announced in Athens despatches, does not imply a step towards recognition of the new regime by Great Britain. It is stated in official quarters here today.

NEW YORK, Oct. 3.--Representatives of the legal departments of the state of Massachusetts and of Berkshire county, Massachusetts, who have

The board of health held a regular meeting yesterday afternoon and granted a number of licenses. Under the law it is required that persons who sell methyl, wood or denatured alcohol shall be licensed, such licenses to be tested by the health board upon payment of a \$1 fee. Many garages sell alcohol to automobilists during winter months and the law is called to their attention. Licenses issued expire April 30 next year.

NEW YORK, Oct. 3.—Louis Montgomery Kardos, Jr., examined in connection with the bankruptcy of the brokerage business of Montagu & Kardos.

announced today that he intended to "redeem" his "credit" claims of \$300,000 by the payment of a book he will write, exposing conditions in Wall street. He claimed that his revelations would be so startling that he would be able to pay his creditors "handsome voluntary dividends."

The firm was associated in the bankrupt firm with the late former treasurer of the United States and governor of North Dakota. Denied a Referee Olney that the firm had buckled orders. The losses, he declared resulted from poor purchasing in foreign exchanges and in dealing in undist securities.

was nominated as candidate for governor at the convention here today. He was opposed by George T. Brown of Providence, associate justice of the superior court and Edward M. Sullivan.

**GASTON'S EXPENSE ACCOUNT**  
BOSTON, Oct. 3.—William A. Gaston, democratic senatorial candidate, expended \$1216 in the primary campaign, according to returns filed by him with the secretary of state today.

LOWELL DISTRICT COURT

### Three Defendants Charged With Liquor Law Viola- tions Are Fined \$100 Each

Joanna Zazycke, Ennio Langlois and Frank Souza were arraigned in the district court this morning for fracturing the liquor laws. The woman pleaded not guilty, but said that she was willing to pay a fine. She then changed the plea to one of guilty and was separated from \$100. The other two defendants were also fined \$100 each.

Henry Beaudry, charged with illegal keeping had his case continued to October 7.

Ralph H. Strauss, the young man who pleaded guilty to carrying a pistol, after being arraigned Monday morning for his actions on Sunday night, was at first fined \$100. When he explained that he would be unable to get the money until the latter part of the week the sentence was suspended and the case was continued to Saturday for sentence.

Stanley Galefig, charged with assault and battery, upon complaint of a Rogers street man, was placed on probation for one year. Stanley admitted throwing pebbles at the window of the young man's sister Sunday night, which led to a chase by the brother, a scuffle and the defendant's apprehension.

Joseph J. Kallmerides, who was charged with non-support, has his case continued for three months. He was told, by the court, to keep away from his wife and not to molest her in any manner.

**SUPERIOR COURT**

Jury Empanelled in Double Action at  
Court Against Michael C. Brennan  
and Out of Court.

At the opening of this morning's  
session of the superior court with  
Justice Cox presiding, several motions  
pertaining to cases that are on the  
court calendar, were presented and  
one case was settled out of court.

Shortly after 11 o'clock a jury was  
empanelled and the double action of  
court against Michael C. Brennan  
brought on by the Sullivan and  
Byam Bros., went to trial. This is a  
case where both plaintiffs are endeavor-  
ing to recover a commission for the  
sale of a piece of property owned by  
Mr. Brennan. Mr. Sullivan's commis-  
sion amounts to \$1000, while that of  
Byam Bros. is \$1015.

## SCHOOL OPENS

The Lowell Evening high school opened last night with a school

ment of 71 pupils. This indicates a most successful season as the registration at the initial session a year ago was 730. A large number of pupils appeared at enrollment but many were disappointed in the new registration is not until tomorrow evening from 7 to 9 o'clock. Sessions will be held every Monday, Tuesday, Thursday and Friday evenings of the week as in former years.

The first assembly last night in the Frank W. Auburn hall where they were addressed by the principals and members of the faculty on matters pertaining to school work. Later the pupils were assigned to their various rooms and the work of the year got under way.

Principal Harris, who expressed himself as much pleased with the fine conduct of the boys, recommended a large number of them for admission to the registration in the salesmanship and merchandising classes. These classes offer an excellent opportunity to those young people who are now engaged in work of this kind in local stores, as well as to those who may be thinking of taking up this line of work. Harris says that the teacher in charge of these classes is well fitted for the work and hopes that they will be filled to the limit.

**DRAWING CONTEST**

The drawing contest organized some time ago by the textile strike committee for the benefit of the strikers, was held at the school building last

ed by J. E. Lyle; A. Bouchard, 3 By street, hen; A. Bird, 52 Race street, hen. The hens were donated by John
